DETAILED ACTION

Allowable Subject Matter

Claims 15, 18-23, 25 and 27-42 are allowed.

The following is an examiner's statement of reasons for allowance:

Independent claim 15 has been properly amended by the applicant to include allowable subject matter as made of record in the previous office action. Claims 18-23 depend upon claim 15.

As to independent claim 25: the examiner agrees with the applicant's arguments on page 6 that the prior art of record does not teach or suggest a MEMS die secured within one of the means for securing, as recited in the claim. Claim 27 is dependent upon claim 25. Newly added claim 35 recites the same limitation of claim 25, in that at least one station of the structural body secures a MEMS die. Claims 36-42 depend from claim 35.

As to newly added independent claim 28: the recited structural body having a plurality of stations wherein each station being adapted to secure a MEMS die, the examiner agrees with the applicant's arguments on page 7 that the prior cited art does not teach or suggest the structural body being of one continuous structure. Claims 29-34 depend upon claim 28.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
